

***For Corporations:
Enriching the Landscape on SEC Research.***

The 2020 challenge: COVID-19 turned the world upside down with quarantines, working remotely, plunging profits, market volatility, increasing refinancing and reorganizations, a growing demand for credit extensions, and your shrinking budget. All these factors and more create a challenge to provide comprehensive support for Corporate America with powerful, yet affordable applications that support more than one division.

The real question is: “How can we best equip our C-Level company activities with a comprehensive research platform that supports all our critical functions with the information needed and not “break the bank” as well?”

The real answer? Kaleidoscope. We help public and private companies conserve budget dollars and yet provide a flexible, easy to use cloud-based research platform that supports credit, equity and funds research, transactional, and compliance functions. No installation required. No special hardware. This solution gives you instant access to information no matter where you are.

Here are just a few ways Kaleidoscope supports the your Corporation:

- Robust search on disclosure language by other companies on emerging topics.
- Easily download all tables within annual and quarterly reports into Excel.
- XBRL & iXBRL view and print. Easy, fast research on financials, notes and accounting policies.
- Monitor SEC news, enforcement actions, litigation, new rules, and compliance standards.
- Agreements database provides easy access to all types of agreements, including employment, credit, and underwriting agreements, and agreement templates.
- Analyze the terms of a spin-off, tender offer, offering circular, refinancing, or a merger.
- Peer Group research identifying trends in executive and director compensation and LTIPs.
- Real-Time Alerts on people, companies, strategies, topics and more.

- Share “Live” Reports with colleagues for up-to-the-minute financial information via customizable dashboards.
- Monitor changes by activist investors and institutional holdings.
- Company profiles help you stay abreast of analyst’s opinions via investor news.

Added-Value Content:

XBRL & iXBRL – No more scouring through a 10-K or 10-Q for financial facts and notes. XBRL Viewer provides quick easy access to the numbers as well as notes to the financial statements, tables and accounting policies. Print the sections you need.

Infographics –

Adds interest and retention because the color coded, dynamic Infographics reveal the numerical and metrics supporting your search results. Each chart is an interactive screener.

Investor News - Explore real investor news, opinion, analyst ratings, ideas and more. Compiled from reliable online resources, not your same old newswires, Kaleidoscope provides access to full text articles in one-easy to use interface.

Transcripts of Earnings Calls – 1) Completely searchable for language trends, exchange, participants, and date range. 2) Read and 3) listen to complete earnings calls with audio playback, so you never miss a call, 4) lists participants: corporate officers, and analysts/companies with links to all companies covered by an analyst. Links to full company profiles.

The screenshot displays the Kaleidoscope interface. On the left, there are search filters for Expression, Company, Participant, Exchange, and Date Range. A red box highlights the Expression filter with a '1'. The main area features a line chart showing mentions over time from August 2019 to July 2020. Below the chart is a table of transcripts. A red box highlights the participants list for Remark Holdings Inc. with a '4'. A red box highlights the audio player for the transcript with a '3'. A red box highlights the blurb text with a '2'.

Company	Exchange	Participants	Date	Blurb	Options
